

# Geography

at

In Year 1 & 2, our children engage in geography lessons for an hour each week. They have the opportunity to learn about location and place knowledge, human and physical geography and geographical skills and fieldwork. We use our own carefully planned Scheme of Work to enhance our teaching and learning of geography, adapting activities to suit the children at our school and how they learn.

Geography in our Nursery & Reception classes is covered in the 'Understanding the World' area of the EYFS Curriculum.

It is introduced indirectly through engaging, practical activities that encourage every child to explore and talk about where they live and the wider world around.

Our children are encouraged to develop their geographical language, observing, discussing and explaining through first-hand practical discoveries. Through Quality First Teaching, we ensure all children are engaged and involved in geographical learning and discovery.

### Human Geography

### Physical Geography

### MEMORY FLASHPOINTS...

These are key facts that our children have learnt in geography throughout their time at our school. Discussing this learning at regular intervals helps us to store it in our long term memory...

**Trips to the coast**

**Practical discovery and taking learning outdoors**

**Celebrating Geography at our school**

**Trips around our local area**

**Special Visitors**

**What do our children think about Geography?**

**"Science is interesting and really fun!"**

**"You can explore things in Geography."**

**"I do Science at home with my lego."**

**"We find out answers to super tricky questions!"**

**"It's about people and their environment."**

**"I like nature and exploring."**

**"It doesn't matter if it doesn't go to plan. There's no right or wrong when you're finding things out."**

**"I just love to learn about Science!"**

**"It's about experimenting."**

**"We find out about what it's like for real Geographers."**
