Seating for parents							

We look forward to seeing you next week!

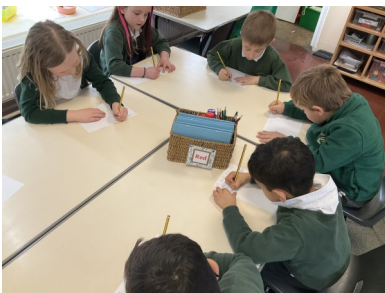

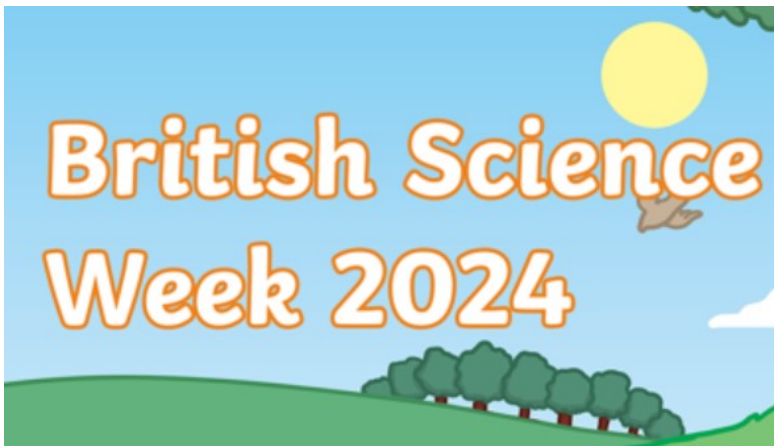

RECEPTION

We have had a very busy few weeks in Reception. Last week was Science Week, and to fit in with the theme of time, we observed carefully how our cress plants were changing each day and we recorded our observations. The children were very excited when they started to see green leaves appear and the cress growing taller. This week to continue with our theme of growing, we looked at different vegetables and tasted some. We decided which ones we liked and chose the ones we would like to include in our soup. The carrots and peppers were very popular!

We really enjoyed making a lovely treat for somebody special to celebrate Mother's day. We talked about what happened to chocolate when we heated it and made some yummy cornflake cakes to share. It was so lovely to see all the children enjoying some special time in school with their family members. Thank you to everybody who came, we hope you enjoyed the treat!

YEAR 1

Time Challenges

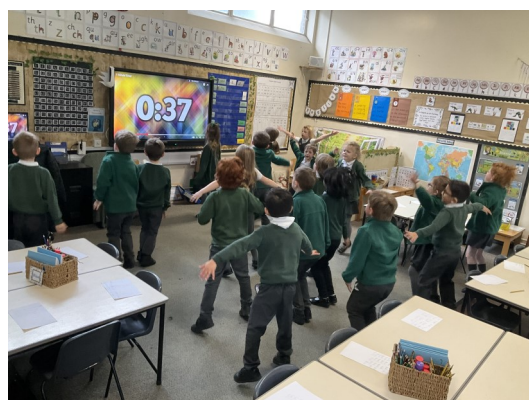

Challenge 1: We closed our eyes and counted in seconds in our heads. When we thought a minute had passed we put our hand up

Challenge 2: We predicted how many star jumps we could do in a minute and then proved if we were right. We were very tired after this!

Challenge 3: We predicted how many times we could write our name in a minute. This was our favourite challenge.

We had a discussion about **time**

- In our daily routine—the time of day we do different activities,
- Throughout the year as seasons.
- We thought about the life cycle of a frog and then thought about our life and how we start as a baby and grow up to be adults.

YEAR 2

Year 2 have had a very special guest in school! Alke, Emmeline's mum from Class 1, is kindly organising some gardening workshops for the children. The children enjoyed learning about composting in our first session this week and helped create a 'compost lasagne'. Thank you to everyone who has brought in composting materials and plastic pots/containers for planting and a huge thank you to Alke for sharing her expertise with the children.
